## LAKE OF SOLID SODA.

## EXTENDING FOR 20 SQUARE MILES

## BUT MANY ARE PERILS OF GETTING THERE.

Further details of the journey just concluded  
by Mr. Fred Shelford, the well-known engineer,  
in connection with the projected railway to be  
constructed from the Uganda Railway to Lake  
Magadi, have been received by "Reuter." This  
wonderful lake, which is only reached after a  
long and difficult journey over uninhabited and  
waterless country, is described as follows by  
Mr. Shelford:"Lake Magadi is picturesquely situated  
amid weird surroundings at the bottom of a  
valley 3,000 feet deep. On one side are moun-  
tains 6,000 feet above sea level, and on another  
a range having an altitude of 8,000 feet. There  
is no sign of human life, but on and about the  
lake are immense numbers of flamingos."From the surrounding mountains the lake,  
which is 10 miles long by two to three miles  
in breadth, looks like an ordinary sheet of water,  
of somewhat reddish hue. On reaching the  
shores, however, we found that the water was  
only a few inches deep and covered a hard  
surface looking exactly like pink marble.

## TWENTY SQUARE MILES OF SODA.

"This is an immense deposit of soda which  
was bored and found to extend to a consider-  
able depth, thus indicating an area of at least  
20 square miles of solid soda. The heat upon  
the soda lake was very great."The object of the expedition was to visit the  
lake, Mr. Shelford's special business being to  
survey for the railway which is to be built in  
view of the fact that the Imperial Government  
has granted Messrs. M. Samuel and Co. a con-  
cession for 99 years to work the soda deposits.Mr. Shelford has left four engineers to make  
a detailed survey of the route he has discovered  
for the new railway. This branch is to be  
constructed and worked by the Government,  
and will be of the same construction as the  
Uganda Railway, of which it will form a  
branch. It is expected that work will com-  
mence shortly.Speaking to "Reuter's" representative Mr.  
Shelford said: "The expedition, which com-  
prised eight Europeans, including mechanical  
and chemical experts and engineers, left the  
Uganda Railway at the station of Kiu, 265  
miles in the interior, and struck westward.

## COUNTRY TRIMMED WITH LIONS.

"The country to be traversed was entirely  
uninhabited, unknown, and waterless. It  
proved to be extremely difficult, the route  
being continually crossed by escarpments eight  
to ten miles long and 300 to 400 feet high.  
Being part of the southern game reserve it  
teemed with lions, giraffes, rhinos, and ante-  
lopes. The problem to be solved was how to  
conduct such a large party, with all their bag-  
gage, apparatus, and stores from the railway to  
the lake. The transport included four ox-  
wagons, 20 oxen, 15 ponies, and about 60 car-  
riers, gun-bearers, etc."A large bare camp having been formed at  
Kiu, great difficulty was experienced at the  
very outset in finding the beginning of a road  
to the lake. Eventually a gorge in the escarp-  
ment was discovered, and a chain of camps  
finally reduced to five—was formed. Several  
of the men employed in cutting tracks were  
lost."Each camp was supplied with tanks of  
water brought all the way from Nairobi, and  
protected by thorn zarbas, a very necessary  
precaution against wild animals. Lions were  
constantly seen and heard, and as protection  
against them, in addition to the zarbas and  
firs, numbers of lanterns swinging on strings  
were placed round the camps. One night 15  
lions came round the tents, of which two were  
shot.

## CHARGED BY A RHINO.

"Two of the animals were on another occasion  
set upon by five lions, while at one camp a  
rhino deliberately charged the tank containing  
the only supply of water, but was fortunately  
shot by a Brier teamster before he did any  
damage. Even in the neighbourhood of the  
of the railway the lions have a very bad  
reputation, and are known at Kiu, sta-  
tion as "bad" lions. It is not at all an un-  
common thing for the trains to be stopped  
because the Indian stationmaster, the only  
official at Kiu, cannot leave his house to set  
the signals until the lions had cleared off.""The last section of the journey was ex-  
tremely arduous, and the wagon transport,  
as well as horses, had to be abandoned. The  
precipitous cliffs were impossible for animals,  
and we decided that the only way to get through  
was to make a bee line on foot over the  
mountains. During this stage two of the  
Europeans got lost among the rocks and passed  
an anxious night, sleep being out of the ques-  
tion with the lions threatening them all the  
time. At length, after a march of 24 hours,  
they were found by a search party from camp.

## TARIFF REFORM.

## MR. CHAMBERLAIN'S VIEWS.

London, February 7.

Mr. Chamberlain in the course of an inter-  
view which occupies two columns in "The  
Morning Post," vigorously denounced any  
whittling down of the Tariff Reform programme  
such as dropping the taxes on food.The Imperial side of Tariff Reform, he  
declared, was the strongest side. He had  
always found the working classes Imperialists.  
They must have a full policy or nothing.

## WHAT MIGHT HAVE BEEN.

If there had been fewer timid wobblers,  
the success of the Tariff Reformers at the  
elections would have been greater. The  
Unionists, he added, must also, before the next  
election, advance definite proposals for in-  
creasing the number of persons owning the  
land they occupy. N. C. D. News.

## RUSSIA AND CHINA.

The Russian Minister in Peking headed to  
the Peking Government in the latter part of last  
year, according to the "Japan Advertiser," a pro-  
posal containing the following six conditions:1. The navigation of the River Amur to be  
reserved exclusively for the Russians and the  
Chinese.2. Russia to open a Consulate at Taonan and  
the Consul there to represent Russian interests  
in that district.3. Russian settlers in Kulun cannot be ex-  
pected to conform to the rigorous rules laid  
down by Lamsin. For this reason Russia  
proposes to adopt suitable alterations on the  
old religious customs in vague terms.4. The Chinese Government not to prevent  
the Mongolian Princes from borrowing money  
of Russia for the purpose of furthering new  
enterprises.5. Russia to enjoy special privileges with  
regard to the working of mines and the con-  
struction of railways in Mongolia.6. Russians to be granted the right to engage  
in trade in Ji and Hsinking and to be protect-  
ed by the Chinese Commission there from all  
molestation by the natives.

## THE WORRIED WOMEN.

They say men must work and women must  
weep; but alas, in this too busy world women  
often have to work and weep at the same time.  
Their holidays are too few and their work  
heavy and monotonous. It makes them  
nervous and irritable. The depressed and  
worried woman loses her appetite and grows  
thin and feeble. Once in a while she has spells  
of palpitation and has to lie up for a day or two.  
If some disease like influenza or malarial fever  
happens to prevail she is almost certain to have  
an attack of it, and that often gives the way for  
chronic troubles of the throat, lungs and other  
organs; and there is no saying what the end  
may be. Let the tired and overladen woman  
rest as much as possible; and, above all, place  
at her command a bottle of

## WAMPOL'S PREPARATION

a true and sure remedy for the ills and maladies  
of women. It is palatable as honey and con-  
tains all the nutritive and curative properties of  
Pure Cod Liver Oil, combined with the Com-  
pound Syrup of Hypophosphites and the  
Extracts of Malt and Wild Cherry. Search the  
world over and you will find nothing to equal  
it. Taken before meals it improves the nutri-  
tive value of ordinary foods by making them  
easier to assimilate, and has carried hope and  
good cheer into thousands of darkened homes.  
It is effective from the first dose, and probably  
one bottle is all you may need. It is absolutely  
reliable and effective in Blood Impurities,  
Nervous Dyspepsia, Wasting Conditions,  
Melancholy, Chlorosis, Impaired Nutrition,  
Scrofula, Low Vitality, and all troubles of the  
Throat and Lungs. Dr. E. J. Boyes says: "I  
have found it a preparation of great merit. In  
a recent case a patient gained nearly twenty  
pounds in two months' treatment, in which it  
was the principal remedial agent." It carries  
the guarantee of reliability and cannot fail or  
disappoint you. Why accept a substitute?  
Sold by all chemists.

It has now been proved that Plague is conveyed to human beings by means of fleas from rats which have died of this disease.

All risk of infection can be avoided by washing the floors, etc., or sprinkling where the fleas are likely to be with a dilute solution of "WATSON'S HYGIENOL." A teaspoonful to a pint of water, or a teacupful to three gallons, makes a solution of the strength required for this purpose.

FOOLING THEIR NEBS.

We had thought that the rancour of the American press published on the Pacific slope against the admittance of Chinese had practically died a natural death owing to inaction. It is so long since reference has been made to the Chinese Exclusion Act that an outsider might be pardoned for thinking that this question had been dropped on the principle that it is best to let sleeping dogs lie. But there is evidence to show that simmering down in the hearts of the people of San Francisco is the stern resolution that at all hazards the Chinese worker must be prevented from landing god's country. We do not grudge the people of America the right of declaring who shall and who shall not be admitted to the privileges which residence in the United States confers on the stranger but we would suggest that the business American is foolish to proclaim his antipathy towards the people of an Empire which he is trying to the utmost of his ability to conciliate. It is not as a rule considered good business to tell a prospective customer that his room is preferred to his company just at the very moment that you are seeking to win your way into his good graces. And that is exactly what the American press is doing at the present time. In China, the American consuls are working overtime to place before their countrymen the vast opportunities which China offers them for the disposal of their surplus goods. The American Minister is charged with the duty of advancing the commercial interests of his country, and trade journals are, daily representing the wide field of enterprise which is open to men of foresight and energy. Yet while all this is being done for the benefit of the trade and commerce of America, certain journals consider it necessary to revive the old quarrel about the exclusion of Chinese and thereby undermine and vitiate all the valuable work rendered by the conscientious officials who represent American interests in China. It is enough to make a camel weep, to see how

men can be so blind to the facts of the situation, and so lost to the lessons of history as to fancy that the Chinese are fools, so sunk in the mire of ignorance and sloth as to kiss the hand which chastises them. The Chinese may not be given to exuberant exhibitions of verbal dialectics, but they have one characteristic which is common to the whole nation—their heads are screwed on the right way, and they can see through a brick wall as well as the next man. Because an occasional Chinaman has the gift of the gab like Wu Tingfang and has kissed the blarney stone in common with every good Irishman, that is not to say the silence of his compatriots should be interpreted as proof of their poverty of ideas. Rather the reverse. Where Wu Tingfang shines in his adaptation of Talleyrand's epigram to his own use—Words were given to conceal our thoughts. And so when the press of San Francisco mount the high-horse and issue frothy fulminations, and make promiscuous charges and attacks on the patient enemy they are doing the greatest possible disservice to their clientele imaginable. The San Francisco Chronicle is the latest victim of that sorry mind which believes in stirring up the mud. It seems that a lady has written a book about China and the Chinese and the New York Evening Post, one of the brightest ornaments of daily journalism in America, whose opinions are quoted and weighed when the lucubrations of all the yellow streaks on the continent are thrust aside, had thus to say about the work: "Here is set forth the whole long story of political chicanery, abuse, fraud, misrepresentation, coercion, illegality, and indecency in which the record of the treatment of the Chinese in this country is enshrined. In the evident willingness, and at times the purpose, to pass laws difficult of enforcement because intricate or obscure, and at the same time deliberately repugnant to treaty obligations and the common rights of individuals at law. \* \* \* to browbeat witnesses, attorneys, and friends, confine and deport immigrants without warrant or trial, and subject innocent residents to indignity and hardship without possibility of mitigation or redress; to moly drive out, or kill offensive persons lawfully resident in the country and not even suspected of any crime; \* \* \* the story of the Chinese in the United States recalls nothing so much as the Drèfhus case. Substitute for the Government and a corrupt officialdom in France a venal labour vote, and corrupt immigration service in this country, and add in each case the bitter element of race hatred, and the historical parallel is singularly complete." That is strong language certainly and it rouses the temper of the Chronicle which characterises the book "as a gross libel on an entire community and has been prudently suppressed by the publishers, who are presumably ashamed of it, as they should be. But it is accepted by such journals as the Evening Post as the truth instead of a lie; because it is in the line of what they they wish to believe." If the Chronicle stopped there, there might be no great harm done, but it was only preparing for the main attack when these innocuous lines were penned. Having taken a deep and long breath the business-man's paper of San Francisco, which is what the Chronicle fancies itself to be now and then, proceeds to play the Chinese in this fashion: "The people of the Pacific Coast object to the intrusion of Oriental labour, because they do not desire the presence of a servile class, and because we have vices enough of our own without being cursed with the vices, far more degrading than our own, imported from Asia. We object to having in our midst a criminal class which openly carries on such saturnalias of murder as are now in progress in Chinatown in this city, and which cannot be dealt with by law because no Chinese of the class which would be witnesses of these murders can be believed under any form of oath. The enforcement of the Chinese exclusion act is as humane as Chinese, themselves permit it to be, and such rigidity as there is or has been is due solely to the fact that in the arts of lying, evasion and bribery the Orientals apparently excel all other human beings. As for the maltreatment of Chinese by hoodlums, there was never much of it and it was dealt with as sternly as we deal with other forms of hoodlumism. The cities and country districts of the Eastern States are as badly infested with hoodlums as corresponding districts of the Pacific Coast, and in our worst excesses our most criminal hoodlums never burned Chinese labourers, or even highbinders, alive, or took them from jail and hanged them, as it is not unusual for negroes to be burned or hanged in some of the Eastern and Southern States. The less heard about "race hatred" from that quarter the better." We maintain that there is not a single sentence in the outburst of vilification which will bear the scrutiny or analysis of any fair-minded man, whether he be an American or a European. It is a tissue of unverified statements and unproved assertions which we venture to think will fool nobody but those who are past the stage of intelligent reasoning. We leave it at that, but we wonder what sort of patriots the ready-writers of the San Francisco Chronicle make themselves out to be when they have the spare time to spend a thought on the subject?

CLERK OF THE COURSE:—Mr. T. F. Hough.

FIRST DAY.—TUESDAY, 15TH FEBRUARY.

The Hongkong Jockey Club annual race meeting was commenced this forenoon, at the Happy Valley, under the most favourable circumstances. The splendid weather, which has favoured the island during the month, was glorious to-day. The brilliant sunshine was tempered by a cool nor-easter which made it quite agreeable to the jockeys and owners as to the spectators who enjoyed a splendid day's sport in one of the finest race-tacks in the world. The course was in excellent condition and the going everything to be desired, a fact which is due to the energy of the Clerk of the Course, Mr. T. F. Hough, who for some weeks past has devoted much time and attention in order to secure the conditions prevailing in the Valley to-day from a sportsman's point of view. As usual there was a very large attendance at the Happy Valley, the Chinese in the centre of the enclosure numbering several thousands and the rails from the winning post right away to the Football Stand were as usual thickly lined. Scattered over the green carpet were small gatherings of native holiday-makers who had come down from Canton in thousands during the recent Chinese festive season and had remained in the Colony over the week to enjoy the time of their life. Black Rock was one of the points of vantage on which quite a number of people perched to watch the progress of the races.

The Grand Stand, paddock and the stately array of gaily bedecked owners' private stands stretching from the weighing-in stand right down to the straight run in to the southward, and from the gateway recent-vice away down to the Bowington Bridge northward accommodated thousands of foreign spectators representing almost every nationality under the sun. The turn-out of ladies in the Grand Stand, members' stand and private enclosure exceeded that of previous years, and doubtless the genial weather contributed much towards this large attendance of ladies who graced the enclosure with their presence in pretty attire which was displayed with so much good taste and representing the latest fashions in Parisian creations. On the occurrence of the scene was one of unusual animation and one which will long be remembered. The tens of thousands of people who gathered in Wong-nai-chong to-day were bent on enjoyment and for the nonce business cares and worries were cast to the winds and one and all gave themselves up to the purpose for which they had gathered together, and that was pleasure. The brightness of the scene was heightened by the presence this year of an unusually large and brilliant contingent—representatives of the allied fleets in port—those of Great Britain and Japan. As the guest of honour of the Stewards of the Hongkong Jockey Club under whose auspices the race meeting is being held, H. E. Vice-Admiral Baron Kamimura, Commander-in-Chief of the first Japanese Battleship Squadron, attended by the members of his suite, was an early arrival within the enclosure. The distinguished visitor, accompanied by the Stewards of the Club and later in the afternoon watched the races from the Governor's stand. His Excellency Sir Frederick Lugard arrived shortly after the first race. The Governor, with whom was Capt. N. Simson, private secretary, was received by Sir Paul Chater and other Stewards of the Club and Mr. T. F. Hough, clerk of the course. The regimental Band announced the arrival of His Excellency with a few bars of the national anthem.

A novel feature this year and one which contributed largely to the convenience of owners and supporters of the contestants was the erection on the inner course of a wooden tower which was conspicuous by its cost of green paint. This structure is in a right line with the Judge's Box and has a white face on its top opposite the Grand Stand. It served to announce the numbers of the winning and placed ponies corresponding with those on the official card, instead of having to wait for the official result of each race as hoisted on the telegraph alongside the Judge's Box, instantly upon the conclusion of each event the number of the winning ponies are electrically given on the "dial" of the tower by the judges for the benefit of the spectators. By an ingenious clock-work device, arranged in the form of a printer's numbering machine, figures about eighteen inches in height were exhibited on the "dial" by pressing a button, with electric connections from the Judge's Box. By this means the corresponding numbers of the first, second and third ponies, in each race, respectively, were given out as soon as each race was run. This thoughtful innovation was much appreciated by the public.

Another innovation was the issuance of a leaflet which was freely distributed within the enclosure. The little sheet gave the results, starters and times for the first four races of the day. It was neatly printed and smartly circulated by Messrs. Noronha & Co., printers to the Jockey Club.

The pari-mutuel and cash sweeps arrangements were carried out in much the same fashion as in previous years. They were in the efficient hands of Mr. I. P. Madar under his capable manager, Mr. U. Rumbach, who was assisted by a competent staff of clerks and receiving and paying shroffs. The entire organisation, which worked to the satisfaction of the public, is controlled by an experienced staff of Bank clerks, who acted as auditors, under the direction of the honorary treasurer of the Jockey Club, Mr. J. F. Cox-Edwards. If the Stewards are not above accepting a suggestion for future meetings, they would be relieving the noticeable congestion which was observable at the end of each race as the crowd gathered around the blackboards giving the amounts of the dividends for the place betting and winners, by removing them from their present position. As now placed the dividend boards with the spectators densely packed in front of them block the exit from the ticket stalls. The boards would better serve their purpose and leave the passage way beneath the members' stand for free ingress and egress were they placed against the outer wall of the building instead of, as now, on the inner wall and opposite each other. The suggestion is, offered in no carping spirit, but it is made in the consciousness of the Stewards' ready willingness to accept any for the public convenience.

Notwithstanding that the day was the eve of the French mail day business in the city was suspended at noon. The exodus of Europeans and Chinese was very great from Victoria to Wong-nai-chong, the latter journeyed eastward in a seemingly never-ending stream from an early hour of the day. In spite of the abnormal heavy traffic the management of the Hongkong Electric Tramway Co. was quite equal to the occasion. The service of special cars to and from Happy Valley was maintained under the personal supervision of Traffic Superintendent, Mr. A. Course, without a single hitch. The large crowds of natives were orderly and good-natured. The regulation of the traffic was controlled by Chief-Inspector Baker who, with his contingent of European and Sikh constables, was responsible for the entire absence of any rowdiness or disorderliness amongst the immense concourse of people in the Valley to-day.

The Band of the Buffs, under the baton of Mr. Hewitt, occupied a prominent position in the paddock and throughout the afternoon played pleasing selections of music in admirable style.

Punctually at 11 a.m. the first saddling bell was rung. For the opening event of the meeting—the Wong-nai-chong Stakes—thirteen ponies faced the starter. It was won by Servian Chief, one of the favourites, from Hartwood, Lightfoot, who was much fancied, did not secure a place. This was a disappointment. The Maiden Stakes produced an exciting finish between Maple Tree and Silverton, and was won by the former by a bare neck. Mr. Buxey's Dwarf Rose, who was much fancied, was nowhere in the race. There were six starters for the next race—the Victoria Stakes—and went to last year's Derby winner, who was far too superior to the rest of the field. Little Gem Rose's time of 2:04 established a record for this race. The Valley Stakes was a tame race and was secured by Man-Man without difficulty, he making the best of a poor start in which he had the advantage of several lengths from Cobalt. After this race there was an interval for luncheon.

After the fifteen adjournment only three ponies—the smallest field of the day—started for the Foochow Cup. It was an uninteresting event and was won hands down by Mr. Vida on Palm Tree. From start to finish Persimmon Tree practically had the race to himself, but lost to Royal Rose at the last stretch through Mr. Vida's despising the chances of Royal Rose who with Mr. Burkill in the saddle managed to beat his opponent by half a length. The field for the Garrison Cup was a large one, and the start splendid. After most exciting finish honours were shared between Cadzow's Fame and Warrior Rose. Mrs. J. H. N. Mody led Warrior Rose into the weighing-in stand, while Mr. T. F. Hough led his Fame in. Both jockeys were applauded. The dead heat was run off after the last race of the day and was won by Cadzow's Fame. Mr. Buxey declared the best of the Roses to win in the Profession, al Cup. Mr. Johnstone, by clever jockeyship, wrested the race from Llama Chief and won by five lengths. Kirkpatrick II. beat Spring Rose in grand style in the race for the Hongkong Club Cup. Mr. Johnstone received an ovation as Mrs. W. J. Gresson led Kirkpatrick II. into the enclosure. The Racing Stakes was won by Blackmore Vale. After this race the dead heat for the Garrison Cup was run off between Cadzow's Fame and Warrior Rose, and was won by the former.

We give below the details for the day's racing:—

1.—THE WONG-NAI-CHONG STAKES.—Winner \$400. Second \$150. Third \$75. For China ponies, subscription griffins of this season 1909-1910. Weight for inches as per scale. Bond side griffins on date of entry allowed 5 lb. Subscription griffins of this season 1909-1910 allowed 10 lb. Entrance \$10. One mile. Mr. Buxey's Little Gem Rose, 1st 12lb. (Burkill) 1. Mrs. Beverley and Standish's Worcester, 1st 11lb. (Laurence) 2. Mr. John Peel's Heraldic, 1st 12lb. (Johnstone) 3. Mr. Ellis Kadoorie's Tartar Chief, 1st 13lb. (Moller) 0. Mr. L. K. Leson's Seafoam, 1st 12lb. (Crickton) 0. Mr. D. M. Slater's Rajput, 1st 8lb. (Slater) 0.

\* 1lb overweight.

The position before the fall of the flag was: Tartar Chief on the rails, Seafoam second and Little Gem Rose on the outer course. No difficulty was experienced in getting the field away on equal terms. Heraldic soon settled down in front of Tartar Chief. First time past the spectators' stand the order was Heraldic, Worcester and Tartar Chief. This was the order also at the back stretch, Rajput bringing up the rear. Going past the Bowington Bridge Heraldic maintained his lead hand pushed by Worcester with Little Gem Rose behind him and Tartar Chief fourth. Nearing the Football Stand the distance was reduced between the leaders by the hot pace made by Little Gem Rose who partnered Worcester in second place up the hill to the Black Rock. Heraldic was now rapidly losing ground. Little Gem Rose shot to the front at the village bend and stuck to the rails, Worcester gamely challenging, Heraldic was beaten, Tartar Chief made a big off stand overtaken, successively, Heraldic and Worcester. The latter ran a splendid finish but Little Gem Rose was too speedy for him and he lost by two lengths. Heraldic was third by half a length from Tartar Chief. Rajput was many lengths behind last. The race was run in record time.

Persimmon Tree made the running with Royal Rose, while Rubber Chief and Lamerton went together in close company. The quartette raced in couples round the back stretch. At this stage Persimmon Tree took the lead and was ahead by about half a length from Royal Rose who closed with his competitor and for the next quarter of a mile raced neck and neck at far as the village bend. Rubber Chief was third and Lamerton fourth. Persimmon Tree forced the pace and shot to the front by several lengths cantering into the home straight. Mr. Vida seemed confident of a win little suspecting Royal Rose who was hugging the rails and answered gamely to every call made by Mr. Burkill. In fine style Royal Rose shot ahead while ten yards or so off the winning post and when Mr. Vida applied the whip to his mount it was then too late for Persimmon

Thirteen ponies started for this race. There was some difficulty in getting the large field away, Lightfoot and Double Dragon being responsible for the first false start. When the flag fell Lightfoot led the way, followed by Hartwood, the other favourite third, Goshawk being last. Lightfoot showed to the front still after the Black Rock was passed and led round the village bend from Hartwood second; Lightfoot was several lengths ahead. Servian Chief was third. There was a capital race into the home straight, Lightfoot being on the rails challenged by Hartwood and Servian Chief. Hartwood soon overhauled Lightfoot who was also displaced by Servian Chief. The first and second ponies fought hard for the premiership a length. Snooker was a good third. Goshawk finished last.

After two false starts due to Kerry running away in the first and Spirit Level in the second, the large field got away to a capital start. Cadzow's Fame settled down in front from Trewint and Fair. Fair shot to the front and just as promptly surrendered his position to Cadzow's Fame who raced first, hotly pursued by Trewint, with Kerry third and Warrior Rose fourth. Younger Brother was last but one. Up the hill Cadzow's Fame led from Spirit Level with Kerry in the third place. Mr. Johnston at this stage called upon Younger Brother and the dark-blue and cerise cap showed well up in the bunch when winding round the latter bend. Kerry fell away. Warrior Rose secured the position of advantage on the rails and neck and neck with Cadzow's Fame, Servant Chief just a length behind third. Every inch of ground was keenly contested and the leaders passed the winning post together, dividing the honours between them. Servant Chief was third. This was the most exciting finish of the day.

## Serious Riots at Canton.

### REVOLT OF GOVERNMENT TROOPS

FOREIGNERS REFUGING AT SHAMEN.

[From an Occasional Correspondent]

Shamen, 11th February.

Through being unable to satisfy the wishes of a common soldier in making a wooden block according to his liking, a Chinese engraver's shop got into trouble and the workman received a severe thrashing from his soldier customer on Chinese New Year's Eve. Fokis in the neighbouring shops, witnessing the occurrence and being dissatisfied with the mode of settlement, appealed to the Police (Chih Kang) for their assistance and the arrest of the soldier. A policeman after investigating the report, arrested the offending soldier and a fight between the two took place. Just at that time a group of soldiers belonging to the same company happened to pass by. They rescued their comrade by force and left the policeman lying dead on the street. Not satisfied with what they had done, the soldiers later attacked the police station and had the building demolished. The chief of the police, on being acquainted with the facts of the case, reported the matter to the Viceroy, who immediately summoned the officer commanding the troops and demanded from him the appearance of all the soldiers concerned in the disgraceful affair at his Yamen to be headed in his presence. It is said that the troops belonged to the Viceroy's newly formed regiment with headquarters at Sha Ho outside the City walls, a little further than the Government Mint and the Five-Storied Pagoda. This regiment is composed of men from Kwangsi, Hakka and Punis, and southern Chinese; they were recently recruited and are a well drilled body of men armed with modern weapons and said to be very brave.

The Officer Commanding, after receiving the Viceroy's order, summoned all the Officers and men and transmitted the Viceroy's command to those present. Many officers and men were at different stations at the time and some were off duty. The reply he received from those present, who were more or less excited over the trouble of the previous evening, was that they all unanimously refused to recognise the Viceroy's authority over them and then and there disavowed allegiance to their regiment and returned their uniforms; they, however, retained their arms and ammunition. The Commanding Officer had their reply conveyed to the Viceroy who immediately notified the Tartar General of the occurrence. As the Commanding Officer could not in any way bring the men to their senses and as according to Chinese law he would be held responsible and severely punished, he committed suicide. The mutineers, not only armed themselves, but killed a superior officer also, for refusing to allow them to take away cartridges and fire arms, and started out in their wild errand of demolishing various police stations and firing on the police, killing over thirty. It is also reported that the Viceroy, alarmed at the turn of events, left the palace in woman's attire and fled to the Tartar General's Yamen for shelter. Fearing an invasion by the disbanded soldiers, the Viceroy ordered all the city gates to be closed, instantly and sought the assistance of Admiral Li Chun, who at once despatched wireless messages ordering the return to Canton waters of all the gunboats.

A French missionary who happened to be near the headquarters had to leave his station under great risk, and gained a small native craft which brought him in safety to Shamen. He heard shots being fired by the rioters and saw a great number of the revolting soldiers making use of firearms. Lengthy communications have been wired to Peking by the Viceroy and other officials. The gentry on learning what had happened and fearing an uprising also wired to Peking blaming the Viceroy for having been the cause of all this trouble.

Saturday.

The city gates are still closed and the inhabitants are terror-stricken. The regiment are men drilled by Japanese Officers and it is officially reported that those stationed here number about 7,000. This morning about 4,000 men surrendered their arms, but the remaining are well armed and are prepared to fight. The riotous elements are availing themselves of the opportunity demolished a police station just opposite the New Chinese Theatre, in Cheong San Street, outside the city walls at 6 p.m. today saying that the police killed a child. The mob numbered over 400, and the police to disperse them had to make use of their firearms, killing three. Probably there may be some dissatisfied soldiers mixed up in the crowd, though they cannot be recognised as they have already discarded their uniforms. They subsequently returned to the police station and set fire to the building, by igniting four tins of kerosene oil which they had bought for that purpose.

Sunday.

The City gates continued closed today, being opened only at intervals, for the convenience of some business people. The prefect of Kwong Chow Fu issued a proclamation this morning informing the inhabitants that Admiral Li Chun with 5,000 men succeeded in killing over one hundred of the soldiers at an encounter near the latter's headquarters and finally succeeded in driving them over the White Cloud Mountains.

From yesterday the walled City has been under the charge of the Tartar General whose soldiers kept watch at all the gates and patrolled the streets. Admiral Li Chun taking charge of the outside city and thousands of his men patrolled the streets and closed up the outside gates at 10 p.m. He stationed some 3,000 men near the White Cloud Mountains to stop the rioting soldiers from returning and to be ready for any emergency.

The Viceroy this morning notified the British Consul-General that he could not guarantee protection to foreigners in the vicinity of the disturbance and the Consul at once requested all those outside Shamen to return to the settlement. At about 3 p.m. launches and boats brought to Shamen the families and their families and all the employees of the Canton-Kowloon Railway stationed at and near Tung Shan; the new office and residence of the Canton-Kowloon Railway staff.

It was by means of the wireless telegraph installation that Admiral Li Chun succeeded in getting all the gunboats and men to return to Canton instantly to co-operate in putting down the rioting.

## "KING ALFRED" BALL.

### A BRILLIANT FUNCTION.

One of the most brilliant functions ever held in Hongkong was the ball given at the City Hall last night by the Commander-in-Chief, Captain and Officers of H.M.S. *King Alfred* on the occasion of their approaching departure from the Colony. A large and select gathering was present to bid farewell to Admiral Lambton and the Officers of his flagship and of all the pleasant experiences enjoyed by the naval men during their brief stay in the Colony, last night's function will find the foremost place in the minds both of the hosts and those who had the honour and privilege of witnessing the hospitality of the famous British Admiral and the personnel of his ship.

The scheme of decoration at the hands of willing, handy tars could not but have been an unqualified success. The entrance displayed an abundance of bunting quite pleasing to behold. The stern realities of war, none the less grim in time of peace, were faithfully depicted by a tea-tin gun which commanded attention with the aid of its grim dark outlines in the glare of the electric light. Smaller guns were also stationed in less prominent positions, and, like the machine given the place of honour, reminded one of their death-dealing possibilities. None could have mistaken the nature of the calling pursued by the hosts of the evening. The staircase was embellished with the choicest flowers of the season. At the top of the landing, the visitor's attention was at once arrested by a beautiful model of H.M.S. *King Alfred*, which was placed in position by a framework arrangement. The diminutive cruiser, over twenty feet in length, displayed skill for which Jack Tar has always been noted and even the minutest details were not neglected. The outline of the ship was picked out in light and the whole attracted the long and admiring gaze of the visitors. St. George's Hall was used as the ball-room. Here as in the other places of decoration, the embellishments were marked with the same taste and artistic skill characteristic of the British bluejacket. The walls were covered with beautiful drapery, the predominant colours being red and white. Here and there, the walls bore circles of gleaming bayonets and cutlery, which reflected the rays of multi-coloured lights shining in the centre with beautiful effect. St. Andrew's Hall was used as the supper-room. Here again the predominant colours were red and white, arranged on the same artistic style as in the ball-room. An interesting feature of the embellishments was the artistic display of various trophies captured by the *King Alfred's* crew in physical exercises. Another interesting feature of the decorations too good to be omitted was an electrical device by which the number of the dances was indicated.

Dancing was commenced shortly after nine o'clock, from which time onwards guests began to arrive in a steady stream. To the strains of the *King Alfred*, the music throng tipped the light fantastic with an itching vigour. Shortly after eleven o'clock, a bell sounded six resonant clangs and all the guests present, headed by the official party, were piped into the supper-room. Forty of six bluejackets to the strains of "The Road of Old England." The official party was composed as follows:—H.E. the Governor and Lady May, Admiral Sir Hedworth Lambton and Mrs. Lyon, Admiral Baron Kerguelen and Mrs. Bodeley, Rear-Admiral Yachiro and Mrs. Rublee, Major-General Broadwood and Mrs. Giesson, Mr. Rees David and Mrs. Ryan, Commodore Lyon and Mrs. Bedford, Sir Henry May and Mrs. Tai, General Jameson and Mrs. Stacpole, Commodore Plant and Mrs. Prior.

Dancing was kept up till the small hours of the morning.
